Comment by Branislav Makan [26/Feb/17]

Checkujeme "Ci su splnene podmienky pre akcie" namiesto "Aka akcia sa ma vykonat pre danu kombinaciu". Ako nasledok, ked je prava rotacia na Shift + Q a lava na Q, vysledok bude lava rotacia, pretoze lava rotacia sa checkuje skor nez ta prava v kode a je tam if...else a samim tym prava rotacia sa ani necheckne.

V podstate ono si pozrie ci je stlacene Q => ano, je a shift ho uz nezaujima, lebo tam bol splneny if.

Toto moze byt problem ked sa vykonava checkovanie v roznych skriptoch, napr. pohyb je A a rotacia Shift + A. Ono si mozno ocheckuje pohybovaci skript skorej, vykona pohyb a neskor zisti, ze moze aj rotovat a urobi obe komandy. Tiez plati aj naopak, ze si checkne najprv rotaciu a neskor vykona aj pohyb.

Obavam sa teda, ze to chce celkom rework bud manazmentu skratiek alebo toho ako tie skratky volame. Tiez je moznost sa proste vykaslat na dualne skratky. Taky workaround by mohol byt ukladat si v manazeri skratiek vsetky akcie, ktore su splnene a z nich vybrat taku, ktora sedi najlepsie (dvoj-klavesova). Stale ale nesmieme davat if...else v inych skriptoch.
